# Fool proof & worry free Options for your fireplace

## Convenient Controls

### Wall Mounted Controls

The MV-STAT allows you to easily control your fireplace. Digitally program the fireplace to thermostatically operate at intervals throughout the day.

MV-STAT

- 7-day programmable
- Up to 4 programs per day
- Child safety lock
- Digital display

### Remote Control

Controls the temperature of your room by turning the fireplace on and off when it reaches a set temperature.

SMART-BATT-HNG

- Program desired temperature
- Displays room temperature
- Child safety lock
- Timer
- Digital display

The WSK-21-W is a simple option to easily turn your fireplace on and off.

### IntelliFire Remote Control

REM-DLX-CE

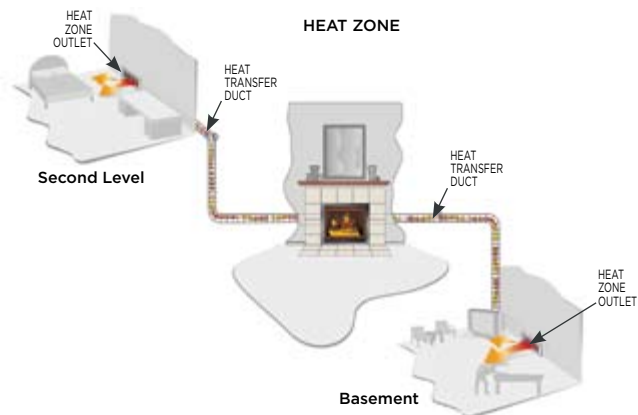

Controls the temperature of your room by turning the fireplace on and off when it reaches a set temperature.

- Manual or thermostat mode
- Program desired temperature
- Displays room temperature
- Digital display
- Celsius or Fahrenheit reading
- Timer
- Time display
- Child safety lock
- Includes wall bracket

## Efficient Heat Management

### Heat Zone

The Heat Zone climate control system turns your fireplace into a flexible, energy-saving heat source by transferring excess heat from your fireplace to other locations in your home. Now you can enjoy a full flame experience and utilize the heat where you need it most.

## Style & Utility

### Stainless Steel Fronts

Available on most models. Customize your fireplace with various finishing options to complement your style.

### Architectural Feature

Add a decorative cover to your outside vent. Primed and ready to paint to match your home exterior.
